1. This action is in response to amendment received on August 2, 2004. Claims 1-29 are pending.

2. The following is an examiner's statement of reasons for allowance:

The claimed invention is allowable over the art of record in view of applicant's arguments presented in the Remarks of the above amendment that the applied art fails to disclose the claimed invention because the applied art requires a "user's deliberate operation" and applicant's arguments that Takayuki's disclosure of activating power supply 12 when a radio signal is received by communication part 10 does not disclose the claimed invention because the radio signal is generated in response to a user's deliberate operation of pressing power switch 7 of a different device (information inputting device 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
